*The Corning San Giovanni Valdarno Sister City Committee is sponsoring a student exchange visit. This is our tenth year sponsoring this student exchange program and we will host eight students and two teachers from 10/05/15-10/16/15. The students and teachers from San Giovanni Valdarno, Italy will stay with host families from our Corning community. While visiting with us the students and teachers will attend Corning High School and visit local attractions. We plan visits to New York City, Washington D.C., Niagara Falls and day adventures to regional and local venues. The Pasta Buffet helps with the expenses necessary to support the costs associated with this student exchange. Please join us at this community dinner.*
